

Cable cutting and stripping machine WPM-09HT2

Scope of Application

WPM-09HT2 Full-automatic Computer Wire Stripping Machine made by our factory is suitable for cutting, head-stripping, tail-stripping and middle-stripping of single –strand, multi-strand and sheath wire. The maximum processing cross-sectional area is 0.1-25mm²; the maximum cutting length is 100m, head-stripping 250mm and tail-stripping 150mm. WPM-09HT2 is suitable for stripping sheath wire especially for sheath wire of long Wire Head and Wire Tail.

Weight: 42KG

Overall Dimensions: 390mm×350mm×255mm

Power: 200 – 450W

Mode of Display: LCD Liquid Crystal Display Screen in English and Chinese

Cutting Length: 0.1mm – 100m

Cutting Tolerance: $\leq 0.002 \times L$ (L = Cutting Length)

Sheath Stripping Length: Head 0.1 – 250mm, Tail 0.1-150mm

Cutting Cross-sectional Area of Wire Core: 0.1 – 25mm² AWG (8#-32#)

Maximum Diameter of Conduit Pipe: $\varnothing 11$

Middle-stripping: 13 places of stripping

Knife Material: High-quality Tungsten Steel

Stripping Speed: 4000 – 10000 pcs/h

Mode of Driving: Four-wheeled Drive (Silent hybrid stepping motor, each step 0.1mm forward)

Adjusting Speed: 0 Slowest, 9 Fastest
